PROFESSIONAL SUMMARY

Available for immediate joining.

Full Stack Developer with 3.5 years of experience building and deploying web applications using React.js, Next.js, Node.js, TypeScript, and PostgreSQL. Expertise spans **REST API development**, **database design**, authentication, and **role-based access control** across booking platforms and ERP systems. Delivered real-time tracking, hardware integrations, and **cloud deployments**, while reducing API response times by 50% through caching and backend improvements.

EXPERIENCE

Travel Easy Solutions Pvt. Ltd. Mumbai
Software Engineer Dec 2025 – Oct 2026

- Architected scalable backend services for Traveez using Node.js and Express.js, integrating MakeMyTrip APIs to streamline booking workflows **supporting 3+ user segments**.
- Optimized Node.js API performance through Redis caching and backend processing improvements, **reducing response times by 50%** while enhancing application scalability and responsiveness.
- Implemented polygon-based geofencing to enable location-based booking workflows across targeted service regions, **contributing to a 50% increase in conversions** and improving booking relevance.

Decagon Software Pvt. Ltd. Thane
Software Engineer Jul 2024 – Dec 2025

- Integrated biometric attendance devices with Decagon ERP using Node.js and zklib-js, synchronizing attendance records **for 1,500+ students and staff** across connected hardware and software.
- **Streamlined 2 key operational processes**, attendance synchronization and payroll processing, by optimizing REST API workflows and integrating RFID attendance capture to improve data accuracy.
- **Delivered 3 ERP accounting modules**, Invoice, Ledger Master, and Product Master, using MySQL and enhanced Next.js interfaces to support accounting workflows and record management.

TCiA Global Mumbai
Cloud Engineer Trainee Oct 2023 – Jun 2024

- Provisioned the EERA e-commerce deployment with its frontend on Vercel, backend on AWS, and database on Amazon RDS, **supporting 100+ daily visitors**.
- Investigated Windows OS hardening practices, **covering 1 operating system platform** to build foundational security knowledge and strengthen understanding of system protection principles.
- Developed foundational knowledge in Azure administration and Linux fundamentals, **exploring 2 technical learning domains** to broaden understanding of cloud administration and operating systems.

EDUCATION

Pillai College of Engineering Panvel
Bachelor of Technology (B.Tech) Aug 2020 - May 2024
Major in Computer Science and Engineering

PROJECTS

React Native Gym Management Platform Feb 2026

- **Developed 25+ REST APIs** using Node.js and Express.js for membership management, payments, attendance, invoicing, and workout tracking.
- Launched a React Native gym management platform **delivering 20+ core features** across role-based dashboards with secure access.

Next.js Work Assignment ERP Nov 2025

- Developed a task-assignment ERP using Next.js, Node.js, and MongoDB, **supporting task tracking for 100+ users**.
- Secured API endpoints using JWT, bcrypt, and RBAC, **enforcing role-based access controls for 100+ users**.

TECHNICAL SKILLS

Key Skills: React.js, Node.js, TypeScript, REST APIs, PostgreSQL
Programming Languages: JavaScript, TypeScript, C++, SQL
Frontend Development: React.js, Next.js, Redux Toolkit, Tailwind CSS
Backend Development: Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control
Databases & Data Management: PostgreSQL, MySQL, MongoDB, Prisma, Redis
Cloud, DevOps & Tools: AWS, Docker, Git, GitHub, CI/CD
Certifications: Full Stack Web Development, Backend API Development, SQL & Database Design, Cloud Fundamentals, Data Structures & Algorithms
